BORDER AND OVERLAP ADHESIVE

1876 THE PROFESSIONAL RANGE

DESCRIPTION

Bartoline 1876 Overlap and Border Adhesive has been specially formulated for fixing decorative borders to interior surfaces, including vinyl and all other wallpaper repairs. Its easy spread formulation has strong grab properties and is ideal for bonding overlaps and for small repairs.

DIRECTIONS

For use as a Border Adhesive: Cut the border to the required length. Spread the adhesive with a brush or spatula, spreading evenly and ensuring edges are well covered. Position the border on the wall and smooth down with a brush or damp sponge. Any accidental splashes should be removed immediately with a clean, damp cloth or sponge.

For use as Overlap Adhesive: Carefully apply adhesive along the length of the seam/repair. Brush down with a clean, damp sponge or a paperhangers brush. Take care to ensure the correct quantity of adhesive is applied. Remove any excess adhesive from the face of the wallcovering using a damp sponge or cloth.

COVERAGE

Allow approximately 250g of adhesive for a border of 10m x 13cm.

CLEANING & STORAGE

Any accidental splashes should be removed immediately with a clean, damp cloth or sponge. All tools and equipment should be cleaned with water immediately after use. PROTECT FROM FROST.

TECHNICAL DATA

Measurement	Value	Test Method
Physical State	Paste	Visual
Colour	Off White	Visual
Odour	PVA Type	N/A
Flash Point	N/A	N/A
VOC content	None	N/A
Viscosity	600 - 700 Poise	Lamy - MSR4
pH	6.5 - 7.5	N/A
