R/M HEAVY GRADE WALLCOVERING ADHESIVE

1876 THE PROFESSIONAL RANGE

DESCRIPTION

Bartoline 1876 Heavy Grade Ready Mixed Wallcovering Adhesive is specially formulated for professional use and is ideal for hanging luxury vinyl (both paper and fabric backed), textile and hessian wallcoverings. It can also be used for applying polystyrene tiles and coving and polystyrene veneers. Bartoline Heavy Grade Wallcovering Adhesive has strong initial tack combined with excellent slip properties for exacting pattern matching. With powerful final adhesion, it is recommended for use with most wallpaper makes and brands.

COVERAGE

Bartoline 1876 Ready Mixed Heavy Grade Wallcovering Adhesive covers approximately 5 square metres per Kilo.

DIRECTIONS

Preparation: Surfaces should be sound, dry, clean and free from damp, dust and grease. Very porous surfaces should be treated with a suitable primer or alternatively a 1 to 1 mix of adhesive and water. Allow to dry fully before hanging wallpaper.

Application: To open: break seal and lift lid. Always follow the wallcovering manufacturer's instructions. Unless the wallcovering instructions indicate otherwise, apply Bartoline 1876 Ready Mixed Wallcovering Adhesive to the reverse of the wallcovering, ensuring complete and even coverage. Apply by brush, roller or finely notched spatula. Avoid getting adhesive on the patterned side of the paper.

CLEANING & STORAGE

Any accidental splashes should be removed immediately with a clean, damp cloth or sponge. Tools and equipment should be cleaned with water immediately after use. Protect from frost.

TECHNICAL DATA

Measurement	Value	Test Method
Physical State	Paste	Visual
Colour	Off White	Visual
Odour	PVA Type	N/A
Flash Point	N/A	N/A
VOC content	None	N/A
Viscosity	640 - 900 Poise	Lamy MSR4
pH	6.0 - 7.0	N/A
